Gov 480: Internationalism and Globalization

Monday & Wednesday: 2 to 3:20 p.m.

Main Building 206

Using a historic-political perspective this course will trace the roots of American internationalism from the Columbian exposition through two New Deals to the period of globalization. Students will examine world-wide sources of political ideals and economic prospects that are influenced by American goodwill and the breath of its economic policy decisions beginning in 1890s. By beginning in 1890s, we look at the birth of interest rate laws, the land grant act, expansion of securities markets, the first large scale anti-trust law, the first large scale international trade policy, the first attempt to move away from the gold standard, the great Columbian exposition, the re-territorialization of industrial development (the creation of the Midwestern industrial belt), as well as the privatization of debt and the transformation of public spending used to galvanized consumer behavior. In that respect the first globalization occurs in that decade alongside other less obvious moves which are instrumental in implicitly shaping policy, such as versions of internationalism whether in the Marshall Plan, or the Great Peace, etc. Mainly, we also will look at the time lag that exists between policy decisions and the development of domestic and

look at the time lag that exists between policy decisions and the development of domestic and international/transnational enterprise; and how that lag is mediated by the public in forms of internationalism and transnationalism facilitated to enhance the “public good.”

We will explore such Cold War themes as the concept of the self, personal freedom, and the individual's relationship with the State by discussing novels, philosophical treatises, dramatic works, poems, films, television, music, comic books, and formerly-classified government documents. The course also will include occasional lunch activities, field trips and guest speakers. Through assignments, class discussion and activities, each student will be encouraged to arrive at his or her own broader conclusions about the impact of the Cold War on American life then and now.

This year, THE JOURNAL, Wofford's literary magazine, will be incorporated into the new BOHEMIAN, a full-color yearbook which is being compiled and edited by students on campus. Because of this exciting change, we need to begin collecting poems, stories, personal essays, photos, and artwork now. Simultaneously, the Helmus Creative Writing Contest, which awards cash prizes for the best work in each genre, is now accepting submissions. The winners of the Helmus Contest will be published in the JOURNAL/BOHEMIAN, but everything submitted to the Helmus Contest will be considered for publication. All Wofford students may enter. History of Philosophy: Nietzsche, Heidegger, Nazism

This Spring 07 course, Philosophy 358, taught by Christine Dinkins, will explore the philosophies of Nietzsche and Heidegger, with special attention to the connections between their philosophies and Nazism. While Nietzsche personally spoke out against anti-Semitism, the Nazis used his philosophy quite effectively after his death. Heidegger, on the other hand, whose written works do not bear obvious ties to Nazism, was involved in the National Socialist movement, and he never in his later life apologized for his involvement or even attempted to explain it. In reading and discussing the works of these two philosophers, we will examine the significance of these tensions and connections, with particular attention to what bearing the connections may have on how we read these works today.

Readings will mostly be from primary texts by Nietzsche and Heidegger, with occasional supplementary readings from secondary texts. In the final portion of the class, we will study the poetry and views of Paul Celan, focusing on Heidegger's influence on his language and ideas, along with the tension Heidegger's National Socialist involvement caused for Celan. Jennie Neighbors will join us as a co-

Herzog's National Socialist involvement caused for Stefan. Some neighbors will join us as a co-teacher for this part of the course. Topics of the course will include: the critique of the philosophical tradition; morality, individualism, and society; the nature of truth; the question of Being; and the problem of technology. Some previous experience with philosophy is expected, but the course is designed to be accessible to students from all majors. No previous experience reading poetry is expected or required. Prerequisite: One course in philosophy.

Sent on behalf of Sally Hitchmough (hitchmoughsa@wofford.edu)

Dear Colleagues:

I am coordinating the campaign for United Way this year at Wofford and am asking you to help make the campaign successful.

As you probably know, United Way is a national organization, but it works at the local level so that donations we make can be most effective in improving the quality of life in our own community.

Spartanburg's chapter of United Way has identified a variety of needs in our community and your dollars help to solve critical issues while supporting a net of services that work for lasting change.

The most effective way to give is by payroll deduction, and next week I will be distributing the forms that will enable you to give this way if you choose. Meanwhile, please take a moment to view this link: it is full of local faces and you will surely recognize some.

ANNOUNCEMENTS

Congratulations to RA Staff Members!

Congratulations to the following RA staff members for outstanding work during the month of October!

RA of the Month: Daniel West, Carlisle 1st Floor

Spotlight Program: Bon Appetit: World Food Day

Presented by Tanya George, LaRone Washington, Brian Fast, Dina Khalil, Kirby Shelley, in conjunction with AWARE and the Diversity/Interfaith Residential Learning Community.

Freshmen Learning Community English & Philosophy

Attention first-year students and their advisors: Announcing a learning community for Spring 07, linking Dr. Neighbors' English 102L and Dr. Dinkins' Philosophy 120C, "Loving the Bomb: The American Cold War in Literature and Philosophy." In this learning community, we will explore some of the ways that the Cold War affected life in the United States, from the "Red Scare" to the Ford Mustang to building bomb shelters in the suburbs. We will explore such Cold War themes as the concept of the self, personal freedom, and the individual's relationship with the State by discussing novels, philosophical treatises, dramatic works, poems, films, television, music, comic books, and formerly-classified government documents. The course also will include occasional lunch activities, field trips and guest speakers. Through assignments, class discussion and activities, each student will be encouraged to arrive at his or her own broader conclusions about the impact of the Cold War on American life then and now.

Please visit http://webs.wofford.edu/dinkinscs/Cold_War_LC/ for more information, and feel free to contact neighborsjr@wofford.edu or dinkinscs@wofford.edu with any questions.

History of Philosophy: Nietzsche, Heidegger, Nazism

Philosophy 358, taught by Christine Dinkins in Spring 07, will explore the philosophies of Nietzsche and Heidegger, with special attention to the connections between their philosophies and Nazism. While Nietzsche personally spoke out against anti-Semitism, the Nazis used his philosophy quite effectively after his death. Heidegger, on the other hand, whose written works do not bear obvious ties to Nazism, was involved in the National Socialist movement, and he never in his later life apologized for his involvement or even attempted to explain it. In reading and discussing the works of these two philosophers, we will examine the significance of these tensions and connections, with particular attention to what bearing the connections may have on how we read these works today.

Readings will mostly be from primary texts by Nietzsche and Heidegger, with occasional supplementary readings from secondary texts. In the final portion of the class, we will study the poetry and views of Paul Celan, focusing on Heidegger's influence on his language and ideas, along with the tension Heidegger's National Socialist involvement caused for Celan. Jennie Neighbors will join us as a co-teacher for this part of the course. Topics of the course will include: the critique of the philosophical tradition; morality, individualism, and society; the nature of truth; the question of Being; and the problem of technology. Some previous experience with philosophy is expected, but the course is designed to be accessible to students from all majors. No previous experience reading poetry is expected or required. Prerequisite: One course in philosophy.

New Spring Courses in Film and Communication

Interested in making your own documentary films? Theater 492 Documentary Filmmaking is a step-by-step approach to making non-fiction films, supplemented by looking at a wide range of styles and theories for using film to express visions of "what's really happening." Some familiarity with video cameras and editing software is helpful, but not essential. Meets M-W at 2 p.m. (includes lab on Wednesday). Limited enrollment.

Interested in the dark side of American cinema? Theater 491 Film Noir examines one of the most visually compelling, psychologically twisted and sexually charged strands of Hollywood history. Meet the tragic tough guys and femmes fatales from the 1940s, and see how they live on in some of the most interesting films of today. Meets T-Th from 2:30 to 5 p.m.; most class sessions include a film screening.

Interested in learning to turn your own interests and experiences into magazine journalism? English 484 Literary Journalism focuses on using the storytelling techniques of fiction to tell non-fiction stories. It's the style of writing you find in bestsellers such as "Into Thin Air," and in magazines such as "Atlantic Monthly" and "The New Yorker." Meets M-W-F at 11:30 a.m.

For more information about any of these courses, contact Prof. Dave Rodrick at RodrickDA@wofford.edu.

Pershing's astute compromise that enabled African-American soldiers to fight instead of being stevedores and truck drivers; the inordinately heavy burden carried by our northern neighbor, Canada, whose national spirit was cemented in the trenches of France; and the poignant poetry that emerged from the pens of front-line combatants. Are You a Yogi?

Or perhaps you'd be interested in the music involved?

If there are any students interested in possibly getting a yoga group together, contact Katherine Turnage at turnagekc@wofford.edu. Be flexible and make time for it.

Prerequisite Change for Feminist Philosophy

Attention students interested in taking Feminist Philosophy (PHIL 480) in the spring: the prerequisites were incorrect on Banner. The only prerequisite is one philosophy course at any level. If you have any questions, contact Dr. Williams at williamsnm@wofford.edu.

Think "Kafka"

What is the art of performance art? Ah, the spontaneous representation of perceived experiences.

Much like slam poetry, performance art is, while sometimes planned, a technique of portraying ideas through the theatrical manner. Foul words are more than encouraged, especially when aiming to emphasize particular points.

Interested in learning about performance art as well? In any case, contact Katherine Turnage at turnagekc@wofford.edu if you have any interest.

If you were at the first Poetry Slam, you know what sort of performance art I am describing. This would be an amazing and odd group to get together and would be a great opportunity to explore your artistic interests.

We will meet outside of Milliken at 7:45 p.m. Wednesday and enjoy some hot chocolate before we begin. Anyone is invited, so if you can please come. If you have any questions, please contact Lash Springs at springssl@wofford.edu.

"Freedom Bus" with Evangel Cathedral Church

On Saturday, Nov. 18, Evangel Cathedral Church is going to be loading up their "Freedom Bus" with clothing and food and ministering at the Hispanic trailer park in the Fairforest area. The goal of their bus is to reach people who have both physical and spiritual needs. They normally feed between 20 and 40 families and clothe 150 to 300 people during their outings. They would love the help of Wofford students! They will meet at 10:30 a.m. Saturday in the Evangel Cathedral gym to load up the bus and then head out. Everyone is welcome! For more information on this event, contact Campus Ministry at x4050 or e-mail wilsonca@wofford.edu.

Great American Smokeout – Thursday

Did you know that after 20 minutes of nonsmoking, your blood pressure drops. After eight hours, your carbon monoxide level returns to normal. So why not take eight hours on Thursday and join millions across America in the Great American Smokeout ... put down your cigarettes and smokeless tobacco for just one day and feel the difference.

Fresh Start Cessation Classes will be offered in Health Services beginning Thursday, Nov. 16. Make the call to reserve your place to increase your future well being! Call x4370 or e-mail wallaceed@wofford.edu.

AMS Thanksgiving Drive

Don't forget to donate canned goods. Collection containers are located in Raines, Burwell and the first floor of all dorms (2nd in Marsh). Help someone else have a Thanksgiving.

Angel Tree

It's time for Angel Tree again! Every year, DSS provides Twin Towers with the names and Christmas lists of less fortunate kids in Spartanburg, and we have 60 kids this year! These lists contain needs and wants of a child, and you have the opportunity to give them these gifts they would not otherwise receive. We recommend a minimum of about \$40 spent per child, so you can sponsor one yourself, with your organization, or with a group of friends! E-mail Anna Collins requesting a child (specifying an age and sex if you want) and the gifts are due UNWRAPPED to Lyn Pace's office by Dec. 8 (the Friday before exams)!

Registration for Accounting 211

If you could not register for Accounting 211 last week and wish to do so, please send an e-mail to Dr. Proctor at proctorje@wofford.edu with the 211 sections that you can fit into your schedule, your W number, the number of hours you have accumulated prior to the fall semester, and your current schedule.

The Best College Course You Can Take

Military Science is the only course of its type on campus. This leadership-focused class will expose you to the United States Army; develop your individual presentation skills, as well as provide you with information on becoming an officer after graduation. Quick question: How many of your peers have a job that pays nearly \$50,000 with full medical, full dental, 30 days of paid leave in addition to world-class educational benefits waiting on them after school? Maybe it's time to consider serving your country while developing your individual skills for corporate America. ROTC classes as freshmen and sophomores incur NO COMMITMENT to military service whatsoever! What they do provide is exposure, information and the chance to better yourself.

Scholarships are available! Full tuition and fees, \$900 for books, and a monthly stipend/allowance of \$350 to \$500!

Contact CAPT Stricklen at x4338 or stricklenws@wofford.edu.

Following this showing, at 7:30 p.m. the Diversity and Interfaith RLC will show the film "Behind the Sun." A discussion will follow on topics including religious freedom, persecuted church, faith and other issues.

Light beverages and snacks will be offered between the films.

Film information:

"Invisible Children" – In the spring of 2003, three young Americans from California left in search of such a story. What they found was a tragedy that disgusted and inspired them. Come, and discover the unseen. This film is fast paced, with an MTV beat, made for the young and young at heart. This wonderfully crappy rock-and-roll documentary is something truly unique. To see Africa through young eyes is funny, and heart breaking, quick, and informative- all in the very same breath.

The Diversity/Interfaith Learning Community would like to thank everyone who showed up to our last movie *Crash*. Following the screening of *Invisible Children*, they will show the film *Behind the Sun* at 7:30 p.m. A discussion will follow on topics including religious freedom, persecuted church, faith and other issues. Courtesy of the Multicultural/Diversity/Interfaith Community.

Light beverages and snacks will be offered between the films.

Film information:

a story. What they found was a tragedy that disgusted and inspired them. Come, and discover the unseen. This film is fast paced, with an MTV beat, made for the young and young at heart. This wonderfully crappy rock-and-roll documentary is something truly unique. To see Africa through young eyes is funny, and heart breaking, quick, and informative- all in the very same breath.

"Behind the Sun" (Run time: 56 minutes) – A story about a young man who attends a university in America, becomes a Christian, returns home to his Muslim family in the Middle East, and faces persecution for his new 'identity' in the form of his father's disownment and his friends' disapproval. After wandering the streets for a while, he finds refuge in a local church. Meanwhile, this church has been facing persecution of its own... In this touching film about religious persecution, the question is asked, "how far will one go for the sake of his faith?"

(Note time changes for both films)

Winter Art Explosion

Mark your calendars, all:
Friday, Dec. 1, 3:00-5:00 p.m.

This is a fantastic opportunity for those artists at Wofford to demonstrate their passion and talent for creating art. This is not limited to purely visual arts--any musicians who would like to perform during the exhibit are more than encouraged to do so!

Anyone interested in being involved in the Winter Art Explosion, an art exhibit for Wofford students and faculty, please contact Katherine Turnage at turnagekc@wofford.edu. Even if you don't define yourself as an "artist," but would be interested in helping out, also email me!

A task for everyone over Thanksgiving Break: gather that poor pile of artwork that sits alone, piled atop one another on your bedroom floor! It's time to relive the art!

At noon **today**, a CH47 Chinook helicopter and an Apache attack helicopter will land on the intramural fields at Wofford College (between Cummings and Twitty streets near Gibbs Stadium) to pick up ROTC cadets from the Southern Guards Battalion for overnight Adventure Training at Fort Jackson, SC.

Cadets will be on the ground in the perimeter of the field by 11:45 a.m. to await the helicopters' arrival.

Once on the ground, the flight crews will unload and give the cadets a class on how to enter the Chinook from the rear.

These aircraft and aircrews will be on the ground from noon until about 1:15 p.m., when they will reload and crank the aircraft, and cadets will "combat load" onto the Chinook for their airlift to Fort Jackson. The pilots will be available to speak to students about aviation jobs in the Army.
